

**REQUEST FOR QUALIFICATIONS**  
**ARCHITECTURAL/ENGINEERING SERVICES**  
**EMERGENCY DEPARTMENT EXPANSION INTO SHELL SPACE**

---

The purpose of this document is to answer the questions pertaining to the RFQ listed above that were received in writing by the deadline listed in the RFQ.

1. Does Form 1295 in Section G (compliance with Texas Government Code section 2252.908) need to be included with our submittal? **Section G. Compliance with Texas Government Code Section 2252.908 is informational only. The successful respondent will be required to comply with this section.**
2. Is this project the interior finish out of an existing 6,200 square foot shell space, or is it the construction of a new 6,200 square foot shell space that will then be finished out later as an expansion to the Emergency Department? **The proposed project is to expand the Emergency Department into approximately 6,200sf of existing shell space that is contiguous to the existing ED.**
3. Is this project a precursor to projects that are included in the upcoming bond program? **This project is independent of any proposed or future bond program.**
4. Are there any facility assessments, needs analysis, or programmatic information used in the formulation of this RFQ that can be provided at this time? **No.**
5. If this project is strictly an interior finish out of existing shell space, are there as-builts and life safety plans available? **Record drawings and associated documents will be provided to the successful respondent.**
