Falcon Report

Recommendations based on voluntary accreditation standards

Falcon Report: Recommendations

JPS Health Network
Fort Worth, Texas

- Consider a universal 10–14-day health assessment for all detainees
- Introduce additional Standing Delegation Orders (SDO)
- Address Polypharmacy
- Change chronic care provider follow up to 90 days or less
- Create lower acuity step down units
- Universal urine drug screen at intake
- All entities at the jail should use EPIC instead of separate EHRs
- Custody and IRC members meet collectively to review all in-custody deaths

Falcon Report Recommendations

- **Consider a universal 10–14-day health assessment for all detainees**
 - **Change chronic care provider follow up to 90 days or less**
 - **Address Polypharmacy**
 - **Introduce additional Standing Delegation Orders (SDO)**
-
- Current process and practices meets or go beyond recommendation
 - Robust intake screening and triage protocols
 - Availability of Telmate (inmate tablets) to route sick calls
 - Clinician driven, flexible, risk-based model for follow up (LOS 114 days)
 - Polypharmacy 33% vs 37% General population (GP), and for 1 or more 77% vs 60% (GP)
 - Current SDO covers common and high-risk conditions
 - 24/7 on-site providers for individualized care

Falcon Report Recommendations

- **All entities at the jail should use EPIC instead of separate EHRs**
 - **Custody and IRC members meet collectively to review all in-custody deaths**
-
- As of April 16th, MyAvatar and EPIC EMR now exchanges medical records via auto queries
 - JPS/MHMR and custody conduct mortality reviews
 - Exploring structures and scheduling logistics with TCSO to integrate this into existing processes

Falcon Report Recommendations

- **Create lower acuity step down units**
 - **Universal urine drug screen at intake**
-
- Has merit for future planning
 - Currently there are step down like environment
 - Current model uses direct assessment, medical history, and targeted intervention
 - MAT program as of 7/31/24 introduced structured protocol for evaluation and treatment
